Manage Frequency Options

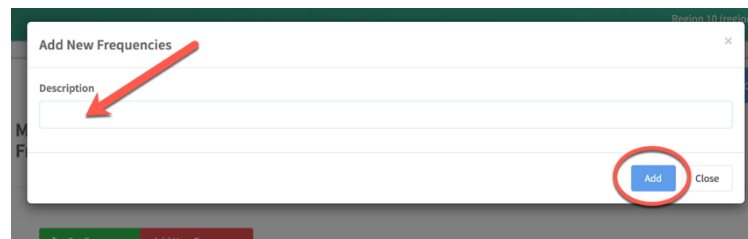

Manage Frequencies

1. Choose 'Manage Frequencies' to see current frequency options and show or hide current options.

A screenshot of the "Manage Frequencies" interface. It shows a table with 6 rows of frequency options. Each row has a "Description" column and a "Display Action" column with "Show" or "Hide" buttons. At the top, there are two buttons: "Get Frequency" (green) and "Add New Frequency" (red).

	Description	Display Action
1	2-3 x Weeks	Show
2	3x per week	Hide
3	4-5 x Weeks	Show
4	4x per week	Hide
5	5-6 times	Show
6	Daily	Hide

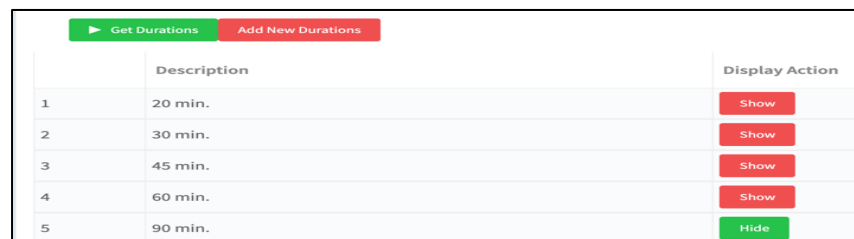

2. Choose 'Add New Frequency' to add a different frequency option. Text the new option in the Description box and click Add.

A screenshot of the "Add New Frequencies" dialog box. It has a "Description" input field with a red arrow pointing to it. At the bottom right, there are "Add" and "Close" buttons, with the "Add" button circled in red.

Manage Duration Options

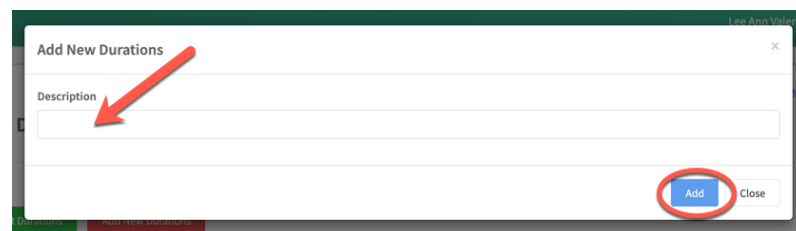

Manage Durations

1. Choose 'Get Durations' to see current duration options and show or hide current options.

A screenshot of the "Manage Durations" interface. It shows a table with 5 rows of duration options. Each row has a "Description" column and a "Display Action" column with "Show" or "Hide" buttons. At the top, there are two buttons: "Get Durations" (green) and "Add New Durations" (red).

	Description	Display Action
1	20 min.	Show
2	30 min.	Show
3	45 min.	Show
4	60 min.	Show
5	90 min.	Hide

2. Choose 'Add New Durations' to add a different duration option. Text the new option in the Description box and click Add.

A screenshot of the "Add New Durations" dialog box. It has a "Description" input field with a red arrow pointing to it. At the bottom right, there are "Add" and "Close" buttons, with the "Add" button circled in red.
